

Easy Wash **DIAMOND**

Highly concentrated, strong alkaline mix for washing cars and trucks. Don't use on Polished Aluminium. Its creamy foam is characterized by its extraordinary cleaning and clinging capacity.

It is a highly concentrated scented cleaner for washing cars. It can also be used for washing vans and trucks as well as an insect remover. Diamond removed without effort the heaviest soiled, leaving no streaks and giving a high gloss. Recommended for prewash with a nebulizer in car washes fitted with high-pressure units and foaming systems.

INSTRUCTIONS FOR USE:

1) **Hand wash:** wash car body with a sponge or brush using a **1:300** solution. Rinse.

2) **Nebulizers:** depending on the degree of soiling, apply a 1:100 to 1:150 solution; spray from bottom to top; leave for one minute; wash with plenty of water under pressure.

3) **Foaming units:** can be used in all types of systems.

High-pressure washing units: use a 1:4 to 1:10 solution; set the unit so as to obtain 0,1-1% at the nozzle.

Should not be left on the body to dry. Hot and matt surfaces should be rinsed with water before washing. Wash in a shady place.

TECHNICAL SPECIFICATIONS

Colour	: green
Fragrance	: characteristic
Foam intensity*	: 
pH 100 %	:13
Dosage	: 0.5 – 1 %
Biodegradability	:> 90 %
